

At CWCU, we strive to protect your Identity and Personal Information. With the recent rise in security breaches and scams, we want to make sure that our members know how to protect themselves in case of identity theft, fraud, secret shopper scams, and more. If you ever get a phone call, letter, email, or a check stating you have won some sort of prize or money, ask yourself the following questions: Do you know the person or company who is contacting you? Were you expecting to be contacted by them? Does it sound too good to be true? If it is, then it usually is and may be part of an elaborate scam. Always use caution during any of these scenarios. *If you believe that you may have been the target of a scam, please contact Commonwealth Credit Union immediately at (815) 937-7447.*
